

Photography Services

Combining both traditional and photojournalistic styles, our team of award winning photographers will work with you to create stunning images to tell the complete story of your event. Our workflow incorporates time for family shots as well as fun and romantic moments with the couple and the wedding party.

An engagement session is included with our standard package where your photographer will teach you posing techniques and review your preferences for the shots that express your true personalities. We create a customized Guest Book from your favorite images that your friends and family can sign on the day of your event.

All photo packages include:
7 Hours of coverage & DVD with all image files
Two Photographers
Proofing DVD with Slideshow
Engagement Session with Guest Book
Custom Designed Storybook Album

Engagement Session Guest Signature Book

Your one hour engagement session can be scheduled several months before the wedding. Once you've selected your 10 favorite images we'll create your guest signature book. Instead of names and addresses your guests can leave you a personal note.
