DON'T FORGET TO

Breathe...

Yes, breathe... Here at A Fancy Fiesta Production, we know that planning your dream event can seem quite overwhelming. But it doesn't have to be! It just takes a planning Company who will listen carefully and assure that your distinct vision is reflected in every detail. Whether your ideal affair is an opulent seated dinner or a casual buffet served al fresco, we will do all the work to make it your personal expression.

We will guide you through the entire planning process from selecting the perfect venue, rentals, choosing the decor and floral arrangements, to designing the perfect menu for your event.

If you are already working with an event consultant, we will work together to ensure all the details are taken care of.

OUTSTANDING

Cuisine...

We treat cuisine as an art form with your taste the key ingredient. Perhaps that translates into a rehearsal dinner of an Asian-themed fare reminiscent of your first date or a jazz cocktail hour that hits a high note with a raw bar of fresh local seafood. Maybe you've imagined a wedding cake infused with the tropical flavor of the honeymoon destination. No savory dish or confection is impossible when it's in the hands of our amazing Executive Chef.

Our award-winning culinary master will work with you to create original menus that tickle your taste buds and honor your most treasured traditions. The sample menu and packages included in this brochure is a mere starting point. We encourage you to dream with us.
