## About me

I don't like to categorize myself as a candid/photojournalistic photographer. I love to capture personalities of my clients. When I look through my camera, that is when the artistic side of me comes out. Capturing personalities is what makes a photo, a photo.

Besides weddings, I also specialize in maternity, newborns, babies, children, teen, families, engagements, intimates and much more.

I believe that you only have one life, so you should fill it with things that make you happy. Photography makes me happy, so I choose to make it my life's work. I know my job is done when I can provide you with photos that bring you joy.

Creating beautiful and fun photography is my passion. I look for genuine smiles, playful expressions, meaningful looks, cool compositions and fun! All great wedding photographers can capture beautiful, traditional portraits of your day, but I have found that best photos are captured when my clients are truly enjoying the moment, whether it be romantic, silly, tender or wild!

Your wedding Photography is timeless, ready to be enjoyed again and again for your entire life and passed down generations. I sincerely hope to be at your wedding and I thank you for consideration of my services.

Sincerely,  
Jessica Slavic | Photographer

## Coverage

### **Preparation**

So much goes into preparation for your wedding day and you and your photographer should be there to capture it. Candid photography at this time will help you feel more comfortable throughout the day.

### **First Look**

If you have a tight wedding day schedule or want some extra time for photography, consider a pre-wedding meeting with your future spouse. Get all of the photography done before your ceremony and have more time to enjoy your wedding day.

### **Ceremony**

The ceremony is the reason for the wedding day and it is sacred and a special event. I make every effort to respect your wishes and the wishes of your officiate. I want you to remember each other as you take your vows.

### **The Happy Couple**

Now that you are married, it's time to take some photos! I like to keep the photo session relaxed, fast-paced and in control. If you're feeling good, you're going to look great in the photos.

### **The Photo Shoot**

Of course I make time for those important family and bridal party photos too. The main focus of my photography is helping you enjoy more of your wedding day.

### **Reception**

The reception is party time. Enjoy your guests, dance, eat and don't worry about the photography. I'll be roaming around with cameras all night. If you're enjoying your reception, your guests will too.

## Timeline, a typical day

12:00-12:45

Arrive at the brides place to get detail shots of the wedding dress, shoes, rings. Photograph bride as she is getting dressed for her wedding.

12:45

Head to the church to grab some shots of the guys before the ceremony begins. Get detail shots of the flowers.

2:00-3:00

Ceremony time! Assistant is covering behind the scenes. Photographer is covering the parents lighting the unity candle, bridal party heading down the isle and the grooms anticipation.

3:00-3:20

Family formals/Bridal formals at the altar.

3:30-4:45

Photos at bride and groom's location of choice.

5:00-5:30

Head to the reception and get detail shots of the cake and decorations. Meet with the DJ to go over the events timeline to be sure that all events take place before the 8 hours is up to avoid extra charges.

5:30-8:00

Photograph the bridal party entering the reception, toasts, cutting of the cake, first dance. No photos during dinner. Father/Daughter, Mother/Son dance, Bouquet/Garter toss. Photograph guests mingling and having fun, grab some dancing pictures during a few fast songs. Be sure to be out on the dance floor early on so we can get some shots of you dancing.
