## *Why Hire a Wedding Planner?*

### **Do I need a Wedding Planner?**

A planner will be a distinct asset as you plan your wedding. Wouldn't it be nice to spend time with your fiancé and your family, rather than worrying about all the details of your special day? A planner will take care of the details, leaving you to have the fun!

### **How can a Wedding Planner help?**

With so many brides and their parents working, a Wedding Planner can handle much of the time-consuming detailed wedding planning tasks. You save time, reduce stress and concentrate on having fun as your wedding approaches.

### **Can I afford a Wedding Planner?**

A Wedding Planner can be a part of your budget. In fact, you often save money because a planner suggests less expensive alternatives that still enhance your wedding. The professional Wedding Planner will work with you to produce your dream wedding.

### **What will a Wedding Planner do for me?**

In addition to helping make your wedding dreams come true within your budget—and perhaps saving you from costly mistakes—a planner will save you time. With today's hectic lifestyles, many bridal couples and their families do not have the time for the detailed planning and work a beautiful wedding requires. A professional planner, working with you, can handle the details, allowing you the freedom to do what you want to do.
