HOW DOES IT WORK?

1. Your personal chef will come to your home to conduct a Client Assessment to discuss your special event, number of guests and what and how you wish to eat.
2. Your personal chef will develop suggested menus and present them for your approval.
3. Your personal chef will charge you the appropriate fee as discussed for the requested cuisines and for any other services provided.
4. Your personal chef will shop for all ingredients and décor and bring those supplies to your home, along with his own kitchen equipment.
5. Your personal chef will prepare the desire cuisines for you and serve to you, your family, and your guests.
6. Your personal chef will clean the kitchen, and leave your home so that the only evidence of him having been there is the smell of good home-cooked food in the air.

CHEF MARLON ANGELO'S personal chefs are available to be hired on a Special Occasion Basis.

Specific pricing is based on the clients menu preferences, event size, hours needed, and other factors which will be determined at the consultation.
