St. Louis Color Wedding Photography

Our Artistic Mission:

As St. Louis wedding photographers, we strive to capture an absolutely professional and complete photographic expression of the beauty and joy of your wedding day: From your getting ready to the end of the day we capture the full range of emotion and details in a complete collection of professional imagery. We mix in formal imagery, but we go after "artistic reality" candid shots that reflect your personality and of those you love as well - those real personal expressions of love and commitment along the road of life. Tears of joy, crazy moves, a tender touch and a moonlight walk all help make for a complete wedding story - your wedding photography should reflect that. We combine everything into our photographic wedding art - we will work with you as a team from beginning to end to plan and produce a beautiful collection of images. We don't cut corners in how we capture and how we process your images and how we use the images to create a custom final album design for you or you can use the images as you wish - we are generous in regards to your image rights. We are dedicated professional artists and we are at your service.

Always check [Our Current Specials](#) (web page) as we strive to be the best value in quality wedding photography in the St. Louis area and our specials are a big part of that: currently offering free prints, engagement sessions and parent's albums.

Besides viewing our various extensive [Slideshow Galleries](#) to get a feel for our style and quality - please [visit various online review sites](#) to see what other brides have had to say about our service, and please [visit us](#) in person.

Awards:

As a testament to our accomplishing what we strive to do - we have won The Knot's "Best of Bridals" awards for more years than any studio in the metropolitan area – including for 2012 - and always by the brides themselves, never by the editors. We also won the "Bride's Choice" Award back to back for 2011 and 2012 from the WeddingWire. We are rated 5 out of 5 stars overall by actual brides at both sites.

An Overview of our Services:

We like to emphasize that we offer extremely high quality and complete photography services at very reasonable charges. Our information may seem overly complex – but we use these many options to customize a package that fits your needs exactly. This is not one or even several sizes fits all – this is custom a tailored photography service that exactly fits you unique needs and desires. To arrive at that goal we need to discuss you needs and our services together and a visit is best for that, or we can talk over the phone or correspond through emails – we are happy to do so. But we need to hear from you to start that conversation. Please [contact us](#).

Always check out our [Our Current Specials](#) (web page) as we strive to be the best value in quality wedding photography in the St. Louis area and our specials are a big part of that. Our service always includes the edited images on DVD (printable to 8x10) and full rights to those images. When an album is included, the full res files are also included also at no charge – or they may be purchased for a reasonable charge. Included in the base charge, you get an elegant website with all your images for viewing and ordering.

The client typically selects his/her individual photographer - Our [Photographer's Bios Section](#) is an introduction to them and a great deal of their work is in our [Gallery Sorted by Photographer](#) The client is invited to visit us at our office and review a great deal of finished work from these photographers and/or meet them individually - we provide contact information.

Our beautiful custom designed bridal albums and custom finished prints are separate charges apart from the base photography charge shown in the chart below, but they are also very reasonably priced – see page 4.

Always check [Our Current Specials](#) – including a bargain [Flat Hourly Rate Special](#) (including free prints, engagement sessions and parent’s albums): <http://www.journalisticstyle.com/specials.html>

Flat rates for any Mon-Thurs and Jan 2nd-March 31st Saturdays at \$135/hour.

See our current [Flat Hourly Rate Special](#) for a super bargain on selected photographers.

It is **highly, highly** recommended for all weddings **that a non-shooting assistant be added for just \$25/hour for around 4-5 hours**. Some of our photographers require this for a one photographer wedding. This helps the photographer(s) be able to shoot efficiently and stay focused on their art. They work as an efficient team to maximize the artistic image capture. All services include high quality printable files.

*We do not charge for 1/2 hour during dinner if we are provided something to eat.

CONTACT US HERE

Image Acquisition:

Included in our service are all the images as printable files up to 8x10 after we have carefully color corrected them. Our processing is of exceptional quality – we spend an average two hours processing images for every hour we have shot. The High Resolution files are available for a minimal additional charge – and are free when an album is purchased.

Custom Print Pricing:

Use this custom printing service when you need the highest custom quality – for your most important prints. We manually correct each print as necessary. You may provide us custom instructions also.

Finished Print Prices	Original Artistically Enhanced in Photoshop/Lightroom Prices
(Includes refining of color, brightness, and cropping as instructed) or Duplicates of Artistically Enhanced Prints	Includes extensive artistic image refining beyond “finished print” work including removing unwanted objects, selective filtration such as sharpening and blurring, and soft focus effects including removing blemishes and/or wrinkles. <i>Note: any duplicate prints are the much lower prices at the left for “Finished Print Prices”.</i>

Wallets, set of 48.....\$ 35.00	20x30.....\$ 150.00
11x14.....\$ 35.00	
16x20.....\$ 45.00	
20x24.....\$ 60.00	

Online Viewing and Ordering:

We will place all of your wedding images on a private website for online viewing and ordering by friends and family. We have found they are actually too many images for most people to enjoy viewing online. We recommend creating a great fun selection in a beautiful gallery is a **huge** improvement. A link to instructions on doing this is here: [Instructions for creating a Visitors Selection on Pictage](#). It is perfect to send email links to and to link to from your social media sites.

Custom Graphic Designed Coffee Table Albums:

We have decided to dedicate ourselves to creating beautiful albums exclusively through GraphiStudio, Arba, Northern Italy – in the foothills of the Dolomite Alps north of Venice. Besides a modern production facility, they have a beautiful castle there: [The Ceconi Castle](#). From this page you can explore their website and learn about the company and their internationally renowned “Wedding Books”.

GraphiStudio is the best album company I have worked with in 30 years of providing wedding photography - we have not found better albums at any price than the “Wedding Book”. The Wedding Book has so many options that it is like we carry several different albums. There are at least 40 leather and other cover material choices, and a wide variety of page print surface choices – including a unique shimmering and almost iridescent paper they call their “Pearl” paper. They also have a metallic paper that is heavily laminated and looks almost three dimensional – it “pops”. Their “normal” photographic paper is the loveliest luster type paper you will find anywhere. Their leather text embossing is the loveliest in the industry.

All our albums are designed by professional graphic artists: Real Graphic Artists, not wannabees. Many visitors tell us about the huge difference between our albums and other studio’s albums in both design and build quality. In four years of carrying GraphiStudio, we have never found a manufacturing flaw in one. Please come by our studio to appreciate their beauty and quality. We have the perfect album for you!
