

OUR MISSION

For 10 years Wedding Recap has captured once in a lifetime moments in a bride and grooms life and expertly edited those moments the same day so it could be presented during their reception for hundreds to see. We have worked with countless entertainment companies creating lasting memories only in a way that few experts can. You may have seen our work on plasma screens throughout the tri-state area, now allow us to capture your whole day, if we can edit dreams in a day imagine what we can do with time.

Wedding Recap is a small Video and Photography company that delivers big. Many of our clients have commented on how we under promise and over deliver. Wedding Recap is a perfect company for budget-minded brides looking for quality. We focus on one wedding at a time and work with you from start to finish with online video editing forms to help guide you through the process.
