COMMON ENDINGS FOR CASINO EVENTS:

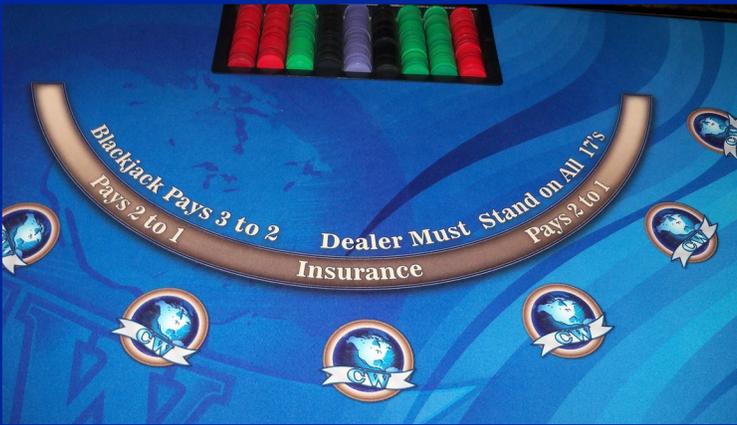

- ♦ **Opportunity Tickets**- Your guests will receive a casino voucher (value to be determined) in the beginning of your event. Guests will take the voucher to any casino dealer and redeem for playing chips. At the end of the event your guests will then redeem their chips for two-part opportunity tickets. They will then put one side of the ticket in the fishbowl or raffle drum and a drawing will follow for the **prizes that you or your company have provided**.
- ♦ **Auction**- The casino event will start in the same way as above, however, at the end of the event your guests will redeem their chips for a casino “check” for the amount that they have won. They will then “bid” on the **prizes that you have provided** with “no change back”. Guests will then have an opportunity to win only one prize.
- ♦ **High Roller List**- At the end of your event your guests will “cash in” with any dealer and the dealer will put their names and the amount that they have won on the high roller list. The lists will be collected and a top winner will be announced.

Planning a poker Tournament? Here's the basics of how to play Texas Hold'em

The dealer, starting to his left, deals each player 2 cards face-down
Then based on those cards alone, the 1st round of betting begins to the dealer's left.
Next, 3 community cards, known as "THE FLOP," are dealt face-up in the center of the table. Betting begins again with the first player still in the hand on the dealer's left.

The 4th community card, "THE TURN," is dealt to the center, followed by another round of betting.

The 5th and final community card "THE RIVER," is dealt and a final round of betting begins.

The players remaining in the hand then turn their cards to reveal the winner.

Due to several rounds of betting and the game's "No-Limit" style, the pots can grow fast and furiously. However, since 5 of the 7 cards are shared by the entire table, the ability to pull off a good bluff is key. The best cards don't always win the hand, the best players do.

Hold'em takes a minute to learn and a lifetime to master.

TAKE IT *OR* LEAVE IT

Based on the popular Game Show, *Deal or No Deal*, this is the perfect game to start any casino event or as a team building activity in itself!

The rules of the game are as follows:

A player (or team representative) will choose 1 of 22 cases. Each case will contain an amount ranging from .05 to 1,000. During each of the 7* rounds that follow, the player/team representative will gradually eliminate the remaining 21 cases.

Round 1 will call for an elimination of 6 cases.

Round 2 will eliminate 5 cases.

Round 3 will eliminate 4 cases.

Round 4 will eliminate 3 cases.

Round 5 will eliminate 1 case.

Round 6 will eliminate 1 case and

Round 7 will eliminate 1 case.

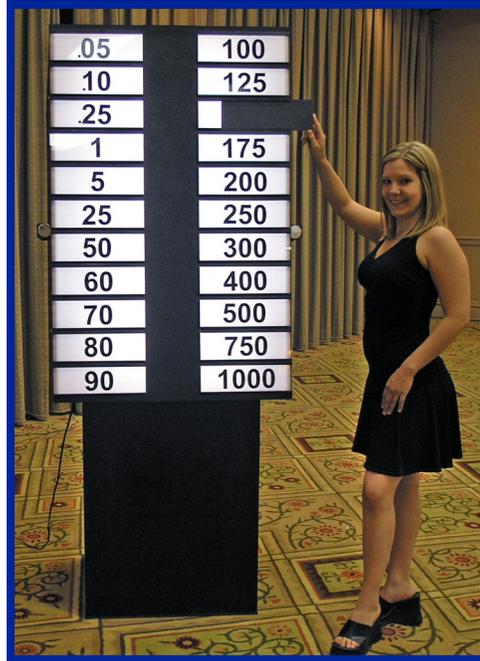

After each round, the “House” will make the player/team representative an offer. It will be up to the player/team to decide whether to accept the House’s offer, or to continue the game. The amount won at the end of the game will be the amount of real money, play money, or points the player/team will have to play with during the casino event (or determine the winner of the team building activity). It’s that simple!

It’s up to you to.....

TAKE IT *or* LEAVE IT!

***Note: The amount of cases eliminated in each round can be adjusted for the amount of players and time allowed.**
