

Hello!

Thank-you for your interest in Forevermore Videography LLC. I would like to tell you just a bit about what you can expect from Forevermore Videography LLC. First, we will arrive two hours prior to the commencement of the ceremony to capture all the pre-ceremony excitement and anticipation. We use multiple camera angles during the wedding ceremony using Canon DSLR equipment and we run a continuous roll so that we can capture your ceremony from start to finish.

For our audio, we use Sennheiser microphones, with a lapel microphone typically clipped to the groom's vest. It is very, very small and barely noticeable. However, it will capture the vows with unbelievable clarity. We then rush to the reception venue to capture all of the guests as they enter to celebrate the new marriage. We then prepare to film the bridal party's grand entrance and we continue to film all of the reception highlights, toasts, the cutting of the cake, the first dance as husband and wife, the mother-son dance—all of the special dances—and all of the unique highlights.

Within 72 hours of the wedding day, we will upload about a 4-5 minute trailer —just a small sample of the ceremony highlights so that everyone can start anticipating the arrival of the full wedding movie. Again, the wedding trailer will simply consist of a few of the highlights from the wedding ceremony and reception.

Within about two weeks you would then receive the full ceremony DVD set, typically about an hour long (or longer depending upon the length of the ceremony and the number of special highlights at the reception). We strive to bring you a wedding film that will far surpass your expectations. We use Final Cut Pro X to professionally edit your wedding footage in order to produce a beautiful wedding film. Our wedding films are so much more than mere video clips that a friend or family member can take with their phone, camcorder or iPad! Please see what recent brides are saying about their professional wedding videos.

What Brides are Saying about Professional Wedding Videography Services?

Although wedding videos have been around for quite a few years, they are now beginning to soar to the top of every bride's must have list. As almost any bride can tell you, the day is over far too quickly and there are so many things that will never even be seen or experienced in the first place. Here are just a few of the things brides are saying about professional wedding videos:

"The only regret I have about our wedding is not having a professional videographer. The day goes by so quickly, you really miss so much of it. I look back now and wish I would have spend the money for it." Vikki K.

"DO IT!!!! I promise you will not regret spending the money. You may not think you want to re-live every minute, but after the day you have been planning meticulously for months flies by in what feels like seconds, you will be desperate for a way to remember it!" Rachael R.

"I just got married and we had both a photographer and a videographer. I am so, so so thankful that we ended up going with the video. It was something we almost cut to save money, but is is so worth it!" —Megan C.

"Our videographer was some of the best money we spent. Our reasoning was that if we're going to spend so much money on one day, don't we want to be able to re-live it through video?" -- Amie W.
