THE VIRTUAL GRAFFITI WALL

This unique 7'x10' screen brings you the latest, cutting edge technology. The Virtual Graffiti Wall works as a digital canvas where you can paint using "infra" light (invisible light), which is detected from a camera placed behind the screen. It's like real art/graffiti, without the paint mess.

The Wall is a perfect interactive tool that can be utilized for any type of event, from weddings to corporate events, from showcases to parties of any kind. The technology allows guests to play with a customized spray paint can with "inserts" that can include your brand or name and date of your event, and any graphics to fit your theme. Using Chroma key (green screen) technology, guests photos are taken, then transported onto the screen with choice of custom or stock backgrounds.

The wall features a large palette of colors to choose from, as well as different brush sizes, and other customizable features that allow for shading and highlighting giving your artwork the ultimate depth!

A professional artist and technician are always part of your interactive art wall!
