# HISTORY

---

District 28 is Toronto's premiere event space. A diamond in the rough, District 28 was once registered as "William Smith Pioneer Wagon and Carriage Manufacturers" in 1843 and later evolved into a custom limousine, truck and car shop. Decades later it was discovered as an abandoned warehouse in Leslieville, and from these humble beginnings, District 28 was born.

Today, District 28 has been converted into a highly coveted event space with soaring white walls and ample space. This blank canvas allows client's imaginations to run wild and transform this space into their dream event.

District 28 is located in Toronto's up and coming East End, nestled within the walls of HangLoose Media: Toronto's top full-service production facility. Joining the two permits for flawless events to simultaneously blend with stunning production content.
