13 YEARS OF EXPERIENCE, BUSINESS INSURED PROFESSIONAL, AND ALL IMAGES BACKED UP DURING WEDDING AND AFTER.

What is the difference between an edited digital file and an unedited digital file (SOOC)?

A straight out of camera (SOOC) shot is a very different image than an edited jpg. Part of the work of a good photographer is to take a great image, but also to process the image to highlight the colors, straighten, and focus your attention on the image and mood. A highly retouched digital negative is one that is edited for print, enlargements, albums, etc. Every package comes with mildly edited digital files **AND** highly retouched digital files. You will **never** see a SOOC image from Heather Barr

Photography. Every image you receive is ready to print.

SOOC -STRAIGHT OUT OF CAMERA

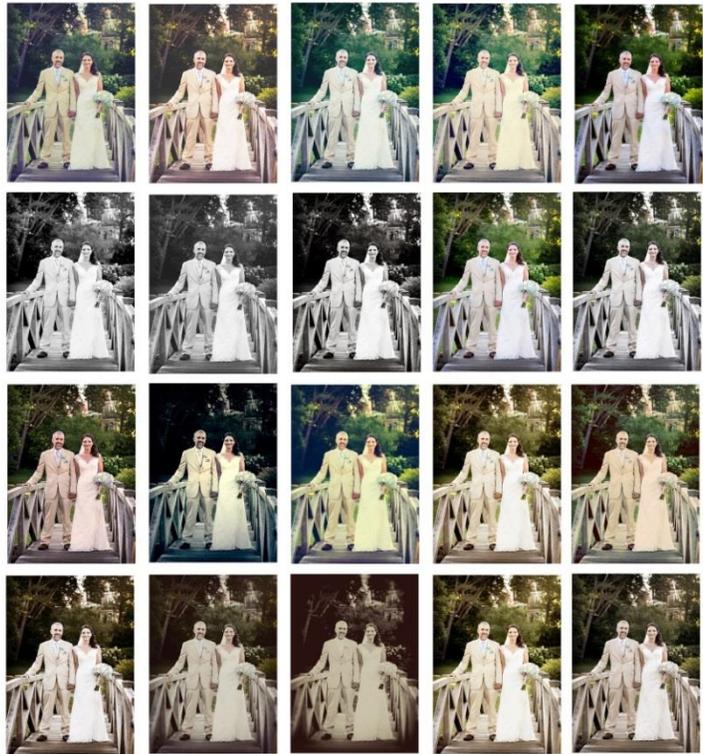

MILDLY EDITED DIGITAL FILE

HIGHLY RETOUCED DIGITAL FILE

What are finishes and what should I expect?

Finishes are the color varieties that I include in all digital files. I give you a variety of finishes based upon what I think the image looks best in and include them as part of your digital files. So you will have a color file and perhaps a vintage of the same image, or black and white. If you would like any particular images before (for example, if you're a big fan of black and white) you can let me know and I'll include more of them in your gallery. Of after you see your images, you can always request finishes. Variety is the spice of life, and I like to provide a lot of variety. An example of different finishes.

Where are you located and where do you travel?

Located in Massachusetts, I travel all over New England, from Maine, New Hampshire, Massachusetts (Cape and Berkshires too) Vermont, Rhode Island and Connecticut.

Why hire a professional wedding photographer?

Simply, because it is the best investment you will make on your beautiful wedding day. I have the experience to capture all those important images, and I am there to capture every detail of your day. I carry professional equipment (with back up equipment), I know how to pose, how to light, and how to represent your beautiful day, exactly as it was, a beautiful wedding day.

What is your photography style, are you unobtrusive?

My style is relaxed, artistic and efficient. I love to capture all the details of your day, providing a mix of traditional, photo-journalistic and candid photography. I am unobtrusive and blend in to provide the relaxed and emotional images of you and your family and your guests. If you desire traditional or formal pictures, I take an active role in arranging and posing the couple and family. For the ceremony, and reception, I prefer to capture your images without disturbing you and your guests.

Many couples are emotional and overwhelmed when they see their gallery, stating, I did not even know you captured that, or that this event happened, or grandma kicking up her heels with your uncle.

What does “All the Digital Files” really mean?

Heather Barr Photography provides you the images on USB/DVDs which include a printing release that allows you to take all of the images print them for yourself, or your family and friends. Make a coffee mug, thank you notes, etc. I recommend sharing your images, and backing up your files on multiple devices. The Digital Files includes *almost* all of the images from the day, I eliminate poor expressions, errors (someone walking in front), blinking, etc. These images are photoshop processed and enhanced as mentioned above.

Are you able to provide extensive photoshopping?

Depending upon what you're thinking about, almost anything can be done in photoshop. Most requests would be headswapping (taking someone's expression from another image and putting it on the final image) or digital liposuction, double chin removal, or removal of person or background distraction. More elaborate retouching is available, and completely dependent upon what you're looking for and if there is a nominal charge.

How many pictures do you take?

I never put a limit on the number of photos I take; I love to capture every little detail of the day. On average for a 6-8 hour wedding, you will end up with 1500+ pictures. I'll take as many photos as are needed to capture your special day in the best way.

Do you offer “proofs”?

Depending upon your package, I can provide finished prints (with no copyright stamps, etc.). These images are printed on professional archival paper. Larger portraits also are available in some packages as well; these will be retouched and enhanced. You have all the images on your USB/DVD, to print and share.

Can I share the images with my friends and family?

Absolutely, your galleries of wedding images are launched with a highlight slideshow of the highlights of your day set to music. On request I can also include another slideshow with ALL the images of your day. On all but the Petite package, I provide an online gallery of images for your friends and family to browse and order images from as well. These are online for 1 year.

Do you provide Wedding albums and album design?

Heather Barr Photography offers a large selection of wedding and parent album options which can be mixed and matched. I provide a variety of albums to fit your needs, and budget. I also provide just the album design if you prefer to print your album yourself.

Wedding Albums

Why is an album important? Years from now, you'll have accumulated thousands, millions of digital files, and you still have not printed any of your wedding photos. A good album is important because:

- An album is what you will look at time and time again; you will get the album out and show relatives and friends. You will get it out on anniversaries and look through the pages; you will show your children and in years to come you will show your grandchildren. Looking at the images via disc on your computer or i-pad just isn't the same.
- Discs won't last forever, they get lost, scratched, broken and with technology moving as fast as it is who is to say how long we will be able to use them for?
- You may decide to make up your own wedding album with the digital files, and try to narrow down the images, design the layout, and find good album vendors- this takes time and experience. Often the job becomes too time consuming and ends up on the back burner and never completed.
- You hired a professional to take the photos, hire a professional to design your album. I have designed many different wedding albums that are gorgeous and highlight the emotion and beauty of your day. I have never had a client regret ordering an album!

Do you do smaller weddings, or shortened hours for weddings?

Absolutely! I can price out smaller affairs for you. Contact me at Heather@heatherbarrphoto.com

What about sharing my images online, facebook, blogs, etc?

When I launch your gallery, I also post images to facebook for you to tag (they'll show up in your page) and post images to my blogs. If you prefer not to have you images shared, that is no problem.

Do you provide additional photography or additional hours?

Absolutely! You can add on additional hours, additional photographer, and additional prints. I try to be as flexible in designing the packages, but it's hard to anticipate everyone's needs, so I attempt to be as flexible as possible.

Second Shooter: I can absolutely provide a second shooter for the day, a highly qualified, detail oriented photographer that will work alongside me. There is an additional charge, please inquire for more details.

- Additional Hours- More or less than the packages. Full day means I will stay with you from getting dressed through the final dance!
- Additional Sessions- Engagement Sessions, Trash the Dress Sessions and Anniversary sessions, etc.
- Beautiful Albums- A wide range of albums to fit every need & budget

Engagement Sessions

At a beautiful outdoor photography location, we can document your love and relationship with stunning engagement portraits. Held at your choice of local outdoor session locations. Only available to Brides & Groom's where Heather Barr Photography is capturing your wedding.-30 minute outdoor local session **\$99**

Why choose Heather Barr?

Heather Barr photographs **ALL** the Weddings. Wedding Coverage, 100% of the time is ME ☺

I am approachable & involved photographer, however, I will blend into the shadows as needed. This is your day; I want to document it in a balanced manner. I never want you to feel like the paparazzi are following you, or your guests feel like that. However, I still capture all the details, actions and the beauty of your day.

Is this your full-time job and how long have you been in business?

Heather Barr Photography was established in 2003. Heather Barr has won awards for her work, and has been published in the Boston Herald, Metrowest Daily News, and numerous online websites. She is a member of the Professional Photographers Association of Massachusetts (PPAM), and Wedding and Portrait Photographer (WPPI).

I am a full-time professional photographer and owner of Heather Barr Photography LLC. I have always been a passionate photographer, after a few years after college I was able to fulfill my dream. The images in my online portfolio represent my work, and I would be your photographer on the day of your wedding. I am passionate about what I do, and constantly strive to provide new and exciting artistic images and offerings

Take a look around at the portfolio images, read the testimonials and contact me!
