

PORTRAIT PHOTOGRAPHY

Portraits of ourselves or our loved ones should be moments frozen in time, not just a flat image of a familiar face. In our portrait photography, we strive to capture the personality behind the smile. We do not have a list of predetermined poses or canned expressions that we will ask you to do. Everyone is a work of art and deserves to be showcased as such. Every session with Blue Skies Reignn will be an experience original to the subject in the spotlight, so have fun with it.

PHOTOGRAPHY SERVICES:

We are offering a unique photography experience. It is different from normal portrait studios because we are combining the skills of our Graphic artist with the skills of our Photographer. If you would like a memory showing you proposing to your significant other while riding tigers under the ocean....well....we are the ones that can make that happen. From engagement portraits, senior portraits, newborn sessions, family portraits, or anything in between the only limit to your experience is the imagination.

We also offer still photography, which includes such media as food, real estate, and stock images, as well as art photography.

GRAPHIC DESIGN SERVICES:

Our graphic designer has experience in the following areas: book covers, album covers, image restoration/enhancement, flyers, brochures, and logo designs. His capabilities exceed his experience, however, and he is willing to tackle just about any design challenge, so feel free to come to us with any ideas/needs you may have.

20% OFF
