## *WHAT ARE THE BENEFITS OF HIRING RING THING EVENTS*

- We listen to you! This is your wedding and we will design it your way, with our artistic spin of course.
- We are available for questions or concerns at any time, no matter the package you book!
- We are awesome organizers. Let us handle all the details, you enjoy the parties, the photo sessions, the dinners.
- You can depend on us. We just won't let you down, that is not what we do. We want you to be able to enjoy this special time in your life.
- We save you money. That's right. The wonderful vendors that we work with want to work with us again and again. Therefore, they will charge us a lesser price for their services than if you tried to book without us.
- We will be by your side. Dress shopping, we're there! Tastings, we can recommend the most awesome caterers, and we love cake. Rehearsal, ceremony, reception - we are never far away.
- Design. Oh we love to design. We have so many great ideas. Tell us your vision, we will bring it to life.
- Experience. We've done countless weddings and we know our stuff. There is very little out there that can surprise us. But if something does come up, don't worry, we got you.
- Wedding Software. We have state of the art planning tools and will give you a separate login to your account where you can see the progress of your day as it unfolds on canvas.
