We pride ourselves in being Oregon and southwest Washington's most personal mobile disc jockey company. Many mobile DJ companies simply book an event and show up at your wedding or reception months later. That's not the way we do business.

Yes, we have all new state-of-the-art equipment and a huge library of music. What sets us apart is our personal attention to you. We encourage you to call as often as you need to make sure everything is planned exactly the way you want. Or, if you're more comfortable meeting face-to-face, that's fine, too. No other DJ company offers as much personal attention. Our goal is to become part of your day and the memory of your wedding.

Too often, couples are not aware of the importance and benefits of ceremony coverage. We come equipped with our professional CD players, crystal-clear speakers, and multiple microphones which we'll set up in a discrete location. We usually place a wireless microphone on a stand for the officiant and one wireless lapel microphone hidden in the groom's tuxedo to guarantee that your family and friends will hear your ceremony.

As your parents and bridal party file in, we will play any special song you and your fiance wish. Of course, we'll play The Bridal March or any other music of your choice for the bride's entrance. We will work together to make the ceremony uniquely yours.

We offer two reception packages: one with sound reinforcement only; the other including lighting effects to ensure your guests will have a wonderful time. We offer a discount if you couple ceremony and reception coverage.

We look forward to getting to know you and being a part of your special day.
