"BECAUSE IN YOUR DREAMS, EVERY DETAIL MATTERS"

DESIGN & STYLING

It's the day of your wedding. Your groom is looking incredible in his heather grey suit and you, the bride, is breathtaking in her ivory, off-the-shoulder Vera Wang gown. When the door is opened, the violinist's music changes and you begin walking the rose petal covered aisle towards your groom.

... how do you want the atmosphere to feel?

What story do you want to be told to your guests from the ceremony to the reception?

Whether you have a playful theme, simplistic details, over the top ideas or an intimate family setting, we can provide what you are desiring and need.

Our staff and team of vendors provide a full and complete individualized custom design plan for your wedding or special event. Cyn Celebrations staff places and removes all decor so you, your family and your friends don't have to interrupt wedding day plans to decorate, setup and take down. All decor will be done according to your venue's timeline and guidelines. This design and décor package includes all necessary elements for your design. We customize for every client based on specific needs, therefore pricing will vary. We do provide a detailed proposal specifically for your event after a consultation of details.
