

# TECH HILL COMMONS

## Where Creative Tech Meets

Launched with the generous investment of Comcast, the Nashville Technology Council has a 9,500 square foot facility known as Tech Hill Commons. This space is dedicated to the continued economic development and promotion of technology companies based in the Middle Tennessee area.

Whether you're looking to challenge your team in an off-site retreat in the Comcast Board Room, teleconference with a client in the ENA Conference Room, powered by Cisco, develop the next generation of tech leaders in the Dell Learning Center, host a training in our PwC Learning Lab, or launch your new innovation in the Event Center, our Tech Hill Commons spaces are available to exceed your organization's needs.
