We know that a wedding isn't about the tables and chairs, the food or the ballroom. It's not about fitting into a mold or just selecting a packing and checking boxes. It's about the wedding couple and the memories created at the event. So our mission is to make the day about you and your vision. You have a lot of responsibilities in planning a wedding; the last thing you want to do is deal with minutiae. With your input, our experienced wedding professionals will design a custom wedding collection specifically tailored to your needs, making the entire process of bringing your dream wedding to life stress-free and enjoyable. Our staff is dedicated to providing attentive and personalized service just as distinctive as your celebration. We know the perfect day is in the details.

We are always happy to mix and match collections, add or subtract items, or come up with something brand new for you. If there is something you do not see, but must have, please let us know so we can make your ideas come to life.
