## ABOUT THE ANNEX

Since 1903, the Annex Building has made a statement of significance in the heart of the Historic District with polished granite columns, block modillions, and an ornate cornice reflective of its Classical Revival architectural style. A historic built-in bar provides an impressive street-level focal point and the second-floor event space, once used as a dance hall, features original wood floors, decorative ceilings, millwork, skylights, wrought-iron balconies, and historic freight elevator. The Annex Event Center is the perfect venue for your next celebration, with full and efficient catering capabilities built right in for whatever your evening banquet or daytime reception requires.
