ABOUT EMPIRE OF THE SEED

What kind of company logo has a buffalo, long leaf pine, switch grass and a quail under a gothic cathedral window?

Empire of the Seed is a company that believes in preserving and regenerating the best of the past while contributing to a clean, sustainable future.

The company proposes that the diversity of ideas leads to a diversity of activities and cultural enrichment that enhances our community. The name and logo were conceived during the formative discussion of the *Coastal Plain Conservancy (CPC)*, a non-profit whose purpose is to preserve the lands that define the coastal plains' distinct landscape. Tall native prairie grasses once sprawled across the southern plains of Louisiana. Long leaf pines continued from Virginia to East Texas. Wild bison roamed the area before man. *Empire of the Seed*, and its distinctive logo, were born from these images.

Empire of the Seed is an umbrella organization that includes preservation of older buildings for adaptive reuse, such as the *Calcasieu Marine National Bank*, Noble Building, and the nearby *Cash & Carry Building*. These three buildings act as the host for creative individuals, functions and projects for the preservation and creation of cultural and memorable events.

ABOUT THE PROPERTIES

Historic Calcasieu Marine National Bank, circa 1928

"Beauty, magnificence, but with it all extreme simplicity – those are the characteristics that first impress the visitor when he views the new Calcasieu bank building or when he first steps inside." - Excerpt from the *American Press* as printed on Friday, November 2nd, 1928.

The *Calcasieu Marine National Bank* is one of a group of buildings in Lake Charles designed by the noted New Orleans architectural firm of *Favrot and Livaudais*. This prominent, quite prolific, firm received numerous major commissions beginning in the wake of the *Fire of 1910*. Their extant work includes the *Calcasieu Parish Courthouse*, the *Lake Charles City Hall*, the *Immaculate Conception Cathedral*, the *Calcasieu Marine National Bank*, and various other schools and residences.

Historic Cash & Carry Building, circa 1936

The *Cash & Carry Building* is a faithfully restored, 9,600 square-foot warehouse built in the 1930's to house what has been described as the *"Sam's Club"* for small grocery businesses. Designed by *Dunn & Quinn*, well known architects who designed nearly 2,000 schools, banks, churches and public facilities, the original plans called for a sturdy, utilitarian building featuring a clerestory (skylight) for light and ventilation.
