Remainder of the invoice must be paid 90 days before the wedding date.

# Descriptions of Ceremony Areas

## The Horse Barn

A two story structure with eight horse stalls, bridal suite, event hall, full kitchen, DJ loft, deck, and multiple restrooms. On the first floor, the horse stalls have been repurposed as a multi-use space covering 1,500 ft<sup>2</sup>. Fitted with customizable sliding walls, quality lighting, and rustic atmosphere it is a great area for mingling with guests, taking pictures in photo booths, or having a formal dinner. It can also be used as a groom's suite prior to the reception. A very large sliding wall separates the horse stalls from the bridal suite, restrooms, wheelchair lift and staircase leading up to the hay loft. The bridal suite features a separate entrance, private bathroom, relaxing ambience, and all other amenities for a comfortable stay.

On the second floor, the hay loft has been repurposed as the main event hall. It features a wood plank floor covering 2,400 ft<sup>2</sup> and a 15 ft ceiling peak. There is a restroom and full kitchen space with a sink, refrigerator, and freezer. A small spiral staircase leads to a small loft above the kitchen that can be used by DJ's to monitor the event, or as a cozy nook for guests. Large windows allow for natural light to flow into the hall, and two doors lead outside to the deck.

## The Barn Lawn

Located just next to the barn, the lawn spans 15,000 ft<sup>2</sup> and is surrounded by forest.

## The Mountain View Lawn

Located next to the main house, this lawn looks out onto a grass valley and alder forest bursting with highbush cranberries and fireweed. In the background, Pioneer Peak rises above the treeline. The lawn covers 4,000 ft<sup>2</sup>.

## The Forest Grove

The forest grove is about 500 paces from the barn. A winding forest path leads you to a grove of birch and alder trees. There is an opening in the grove looking out onto a hayfield and the Chugach mountain range. The grove spans approximately 2,000 ft<sup>2</sup>.

## The Peony Field Overlook

This overlook has a wonderful view of the peonies in full bloom. Measuring only 2,400 ft<sup>2</sup> but surrounded by vibrant flowers, it is a great location for smaller gatherings.

## The Hayfield Overlook

Another intimate location, nestled within a small birch and alder grove, overlooking 30 acres of hayfield, this area covers roughly 1,500 ft<sup>2</sup> but makes for an amazing view.

## The Hayfield Lawn

Situated adjacent to the hayfield, this location covers 10,000 ft<sup>2</sup> and offers better views of the Talkeetna mountains in the background. This location is about 360 paces from the barn.
