Site Overview

Montreal's newest open air venue boasts space for hundreds of guests in a safe model that allows for proper social distancing.

Our outdoor garden is a perfect space for restaurant style dining, family movie nights, intimate live shows, private & corporate events.

The site can flex according to guidelines set by provincial and municipal leaders and conform to all health rules and regulations.

For inclement weather, a large structured pavilion featuring 22ft vaulted ceilings and glass walls will protect against the elements. Walls and glass doors move and open to allow air flow and ensure guests stay comfortable.

Highlights
