# OUR STORY

Over 30 years ago, Pastors Matt and Amy Stoehr began their journey by imagining a community gathering space in North County while they pastored at a local community church. In 2017, they felt the time was right and began penciling out a beautiful garden venue that was meant to serve the community by hosting weddings and other community events.

After years of planning, dreaming, and praying, in 2019 we broke ground! Today the waterfall overlooks a stunning venue meant to be a gathering place for you, your friends, and your family!

With over 36,000 sq ft of usable space, our outdoor space features lush gardens, waterfalls and water features throughout, covered lawns, market lighting, and a glass conservatory.
