

The Insight Team would be very pleased to assist in your event with all of your photographic, video, graphic and digital imaging requirements. We are pleased to be able to provide full digital slide-show productions. We take pride in providing an elite group of highly skilled Photographers, all with extensive backgrounds in the industry.

We welcome the opportunity to shoot professional quality photographs of your entire event, for display during or at the end of the event. This can be a pre-sold option, or a speculative venture where the guests have the opportunity to purchase the photographs from our on-site display as they please. These photographs are originally presented in a 4" x 6" print format with the option of a nice display frame. Orders for all sizes of photographs are available at a reasonable price. (There is no obligation to the guests to purchase photographs). The photos or the frames can have a custom logo imprinted.

The slide shows that we produce are definitely a highlight to many events, trade shows and conferences. The main idea behind our slide shows is to encapsulate the events of the guests' stay for a grand presentation on the final evening of the festivities. Between the activities, the seminars, the surprises, the sequences and the appropriate music, this has always proven to be a great climax to end off the 'Event Experience'.

Another frequent request is for a session of formal portraits to be taken at one or more of the event functions. We set up our studio lighting gear at the venue of your choice and take photos of the various individuals, couples and groups throughout a set time during the evening. This is a pre-paid option with the cost varying on the number of people present. These photographs are presented in an optionally embossed custom cardboard frame.

**Full video production in all formats available upon request.**

Enclosed is a list of the services that we offer, with a pricing breakdown. Please contact our office at your convenience in order to discuss your exact requirements. Please refer to our website, [Insight-Photography.com](http://Insight-Photography.com), for samples of our previous work.

Sincerely,

Gregory J. Eymundson Dipl.B.  
Director of Photography
